EMBO
Molecular Medicine
Conference

6-8 June | 2006
Dublin | Ireland

EMBO Installation Grants

Deadline: 15 July

The European Molecular Biology Organization (EMBO) works with leading researchers to promote excellence in molecular life sciences in Europe.

→ About EMBO

- introduction
- activities
- EMBC
- history
- EMBO news
- EMBO Council and Committees
- calendar of events

→ Focus Areas

- courses, workshops and conferences
- plenary lectures
- electronic information
- fellowships
- science and society
- young investigators
- world activities
- women in science

→ Communities

- 'At the benches'
- fellows network
- sectoral groups
- co-operation
- members
- EMBO Life Sciences Mobility Portal

→ Publications

- The EMBO Journal
- EMBO reports
- Molecular Systems Biology
- EMBO Documentation

→ EMBO reports

→ The EMBO Journal

→ Molecular Systems
Biology

→ EMBO Laboratory
Management Course

→ EMBO Mobility Writing
Competition
Deadline - 12 May

Electronic information programme

- Not just EMBO's Web-site
- Web-services facilitate communication between EMBO and life science communities
- Community sites facilitate communication and interaction between the members of EMBO's own communities (Fellows, Young Investigators, Courses & Workshops participants)
- The programme also provides online application services for other EMBO programmes

Welcome to EMBO fellowsNet!

You will be aware that EMBO is very proud of its fellows.

Obtaining a fellowship is a very competitive process, and one which we hope carries with it a prestige in addition to the funding you received.

For many years, we have been building contacts with our EMBO fellows, particularly through email alerts on different activities. We now move to a new phase with the [fellowsNet](#), a web based EMBO Fellows Community. We want this to become a location where you will find information of particular relevance to you, but also an improved mechanism for you to communicate either with your EMBO fellow colleagues or with EMBO in general and to have more visibility.

Our overall goal is to strengthen the EMBO Fellows Network, such that the EMBO fellows will be an effective component of all of the EMBO activities and through this an increasingly positive resource within the European scientific community.

Communities only work if there is a good engagement by all concerned. We look forward to hearing from you and to responding to your suggestions, in order to deliver a better service to you and to Europe through this network.

Yours,

Frank Gannon

Prof. Frank Gannon
Executive Director, EMBO
Secretary General, EMBC

EMBO publications

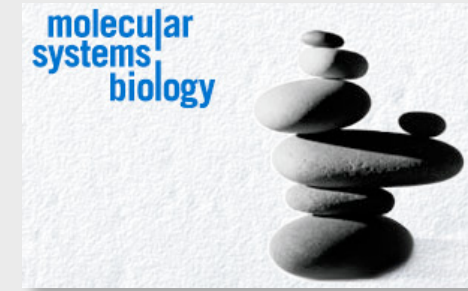

- Launched 1981; 25 years of high quality science !
- Scientific articles and reviews; broad scope
- Rapid publication and high visibility of published papers
- Fast and fair decisions supported by EMBO editors, executive and senior editors, expert peer reviewers and advisory editorial board of EMBO members
- Print and online; free access 12 months after publication

- Launched in 2000
- Broad scope and a variety of article formats
- Editorials
- Interviews
- Reviews
- Science & Society section and special issues on science & society topics
- Scientific Reports
- Print and online; free access 12 months after publication

- Launched 2005; focuses on the young and growing areas of systems and synthetic biology
- Open access and online-only; free and immediate access to all content
- Publishes scientific articles, reports, reviews, News & Views
- High quality science; rigorous peer review; high profile senior editors and editorial board
- Technical support for SBML-based models
- Online feedback forum encouraging community interaction
