Türkiye's R&D Ecosystem Continues to Grow

In the last 21 years, R&D expenditure increased 10-fold from 1.2 billion dollars in 2002 to 12 billion dollars in 2022 with the GERD/GDP being 1.32%.

The share of the private sector in R&D expenditures is at the forefront!

In the last 21 years, the number of FTE R&D personnel has increased ~10-fold to 272,638.

★ 2023 target in the 12th Development Plan has been achieved.

International collaborations in which Turkish researchers take part trigger the creation of higher quality outputs.

In the last 21 years, researchers from Türkiye have been involved in more international co-publications by 844%.

Category Normalized Citation Impact of Internationally Co-Authored Publications:

Türkiye: 1,78; G20 Average: 1,35
