World Bank
Türkiye Green Industry Project

1832 Green Transformation in Industry Program

TÜBİTAK

Technology and Innovation Support Programs Directorate

World Bank – Components of the Türkiye Green Industry Project (TGIP)

All of the current TEYDEB supports are in the form of grant support.
In order to facilitate and diversify access to finance, **a reimbursable (on-credit) support** mechanism is planned. A **new program coded 1801** is designed.

1801 REIMBURSABLE AND GRANT SUPPORT PROGRAM FOR INDUSTRIAL R&D PROJECTS

Scope: Only for **Green Transformation** themed R&D and innovation activities
NACE code: Defence sector is excluded

World Bank-Türkiye Green Industry Project

- All existing **TEYDEB support programs** are provided in the form of **grants**.
- In order to facilitate and diversify access to finance, it was planned to introduce a **Reimbursable Support Mechanism.** To this end, a new support program, **“Program for Reimbursable and Grant Support for Industrial R&D Projects” (Code 1801)**, has been designed.
- The first implementation of the program is being carried out under the **World Bank Türkiye Green Industry Project (TGIP)**. The Project became effective on **August 1, 2023**.

Within the scope of the World Bank Türkiye Green Industry Project (TGIP):

- A total of **US$175 million in financing** has been allocated to **TÜBİTAK**.
- The allocated funds can be utilized over a period of **six years**.
- The funds can only be used for **R&D and innovation activities focused on Green Transformation**.
- The support provided will consist of **both reimbursable and grant components**.
- Throughout the six-year TGIP implementation period, calls are being launched under **three different components**, with the program codes **1831, 1832, and 1833**.

1832 – Call Scope

TÜBİTAK

- **R&D activities of private sector companies at TRL 3-9 aimed at green transformation** are supported.
- The proposed projects are expected to fall within one of the following thematic areas:
    - Climate Change, Environment and Biodiversity
    - Clean and Circular Economy
    - Clean, Accessible and Secure Energy Supply
    - Green and Sustainable Agriculture
    - Sustainable Smart Transportation
- Projects are expected to primarily focus on **technology validation activities aimed at commercialization**, such as developing new prototypes for technologies that have progressed beyond the conceptual stage, conducting further development or improvement activities on existing R&D prototypes, and carrying out tests for the validation or approval of prototypes.
- A company can apply to the call with a **max of 2 project proposals**. A maximum of **3 partners** can take part in a project.
- Universities and research institutions are not involved as partners; However, consultancy or service procurement can be provided.

Call application dates: 03.08.2026 -28.09.2026

Project duration: max 24 months

Budget limit : Micro/small scale firm : TRY 15.000.000 TL

Midium scale firm : TRY 24.000.000 TL

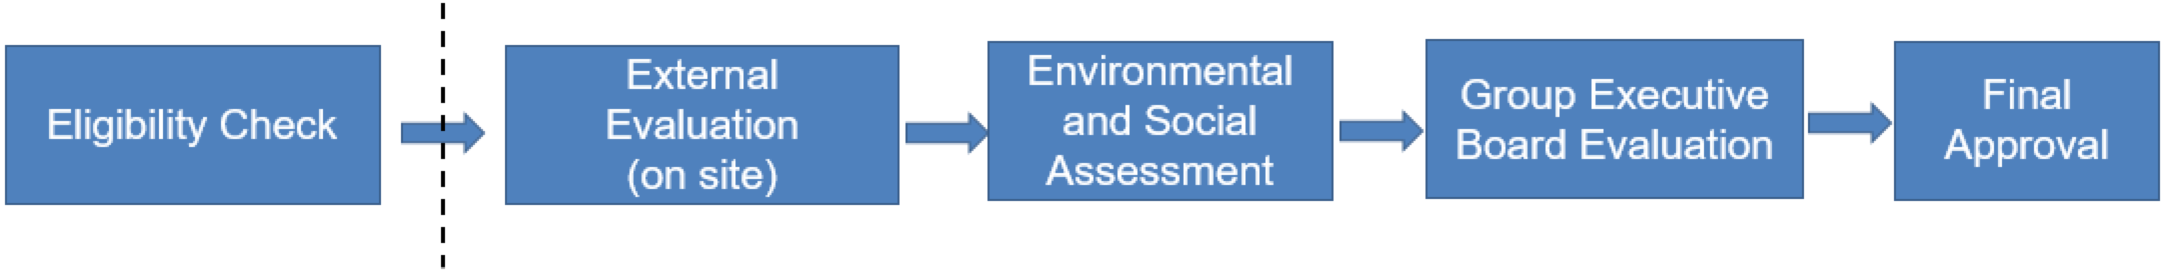
Large scale firm : TRY 51.500.000

General Rules

- Firms will be provided with **interest-free** reimbursable support **in Turkish Lira**.
- **Collateral equivalent to 100% of the financing support** to be provided by TÜBİTAK will be required from capital companies.
- Firms must have been **registered for at least two years** (excluding start-ups and spin-offs).
- The **applicant firm must be a privately owned enterprise with at least 75% private-sector ownership**.
- A **financial eligibility assessment** will be conducted *(asset value or net sales must exceed the amount of reimbursable financing received)*.
- An **Environmental and Social Risk Management Declaration Form** will be obtained from each firm participating in the project.
- Regardless of the number of projects, an firm may receive **reimbursable financing under the World Bank support up to the following maximum limits, depending on its size**:

Micro/Small-Sized SME: USD 500,000
Medium-Sized SME: USD 800,000
Large-Sized Enterprise: USD 1,500,000

1832 – Evaluation Process



The evaluation process will be initiated for projects that pass the eligibility check.

- 2+ year operation
- 75% or greater privately owned (capital ownership)
- Financial viability
- Creditworthiness

1832 Green Transformation Calls

TÜBİTAK

Call	*Application Period*	*Number of Applications*	*Evaluation*	*Number of Supported Projects*	*Announcement of Results*
1832-2023	08.12.2023–09.02.2024	162	Completed	84	October 2024
1832-2024-1	15.04.2024–17.05.2024	73	Completed	40	December 2024
1832-2024-2	01.08.2024–03.10.2024	77	Completed	36	March 2025
1832-2024-3	02.12.2024–31.01.2025	162	Completed	62	July 2025
1832-2025-1	07.04.2025–16.06.2025	152	Completed	43	Project-specific announcement – completed
1832-2025-2	04.08.2025–30.09.2025	131	Completed	43	Project-specific announcement – completed
1832-2025-3	01.12.2025–30.01.2026	160	Completed	92	Project-specific announcement
1832-2026-1	01.04.2026–09.06.2026	196	Ongoing	–	Project-specific announcement
1832-2026-2	03.08.2026–28.09.2026	–	–	–	Project-specific announcement

Changes Compared to Previous Calls

- The **limit of a maximum of two World Bank-supported projects per firm has been removed**, and **firm-based budget tracking** has been introduced. Firms may receive support for more than two projects, provided that they do not exceed the **program-specific upper limits** determined according to their size.

- The **R&D and Innovation thematic areas** defining the scope of the call have been **expanded**.

- The requirement that proposed projects must be a **continuation of a previously conducted R&D project has been removed**. Firms may submit new project applications without linking them to any previous project.

- The scope of R&D activities has been **expanded from TRL 5–9 to TRL 3–9**. However, projects starting at **TRL 8 are excluded** from the scope; the expected **target TRL must be at least TRL 7**. **Scale-up activities are mandatory.**

- The **additional 20% grant support** previously provided for successfully completed projects has been **abolished**.

Reimbursement and grant rates

	Credibility ratio on the approved project budget (loanable amount)	
	Firm’s equity ratio	Level of financing
Large scale company	30%	70%
SME	20%	80%
SMEs in earthquake effected regions	10%	90%

	Reimbursement ratio	
	Ratio to be repaid to TÜBİTAK	Grant ratio
Large scale company	50%	50%
SME	40%	60%

Examples for support amounts

LARGE ENTERPRISE

Grant ratio 50%
Reimbursement ratio 50%

Total project budget 10.000.000 TL

3.000.000 TL
Firm's own contribution (30%)

7.000.000 TL
(70% reimbursable finance)
Reimbursement ratio **50%**
Grant ratio **50%**

6.500.000 TL firm's own contr. (65%) ← 3.500.000 TL is refunded
3.500.000 TL grant (35%)

3.500.000 TL is granted

SME

Grant ratio 60%
Reimbursement ratio 40%

Total project budget 10.000.000 TL

2.000.000 TL
Firm's own contribution (20%)

8.000.000 TL
(80% reimbursable finance)
Reimbursement ratio **40%**
Grant ratio **60%**

5.200.000 TL firm's own contr. (52%) ← 3.200.000 TL is refunded
4.800.000 TL grant (48%)

4.800.000 TL is granted

Success Criteria- Green Transformation Indicators (GTI)

- For the successful completion of the project, at least one of the below defined **Green Transformation Indicators** (GTI) should be targeted in the project proposal.
  - GTI 1: Decrease in electricity consumption per production unit (at least 10%)
  - GTI 2: Decrease in water consumption per production unit (at least 10%)
  - GTI 3: Decrease in non-recyclable waste amount (at least 10%)
  - GTI 4: Development of innovative green technology solutions

- **A systematic method** to measure GTI should be outlined in the project.
- The **success status** of the project will be evaluated within this systematic framework at the end of the project.
