

TÜBİTAK – UKRAYNA (DKNII) PROJE SONUÇLARI (2013)

#	Proje No	Yürütücü	Ukraynalı partner	Başlık (İng.)
1	113O805	Prof. Hikmet BUDAK Sabanci University	Prof. Yaroslav BLUME Institute of of Food Biotechnology and Genomics, NASU	Exploration of autophagy-related genes involved in cereal drought and salt tolerance via tissue specific transcription profiling
2	113F205	Prof. Ali Gencer Ankara University	Tatiana Prikhna Institute for Superhard Materials	Fabrication of nano-structured superconducting bulk MgB ₂ and melt-textured Y-Ba-Cu-O ring samples in high-pressure – high- temperature conditions for fault current limitation; magnetic and mechanical characterisation
3	113M909	Prof. Sunullah ÖZBEK Gedik University	Prof.Dr. Petro YASNIY National Technical University	“Investigation of In-Service Degradation of Steels and Welded Joints of Thermal Power Engineering Facilities”
4	113F206	Prof. Mehmet Hikmet Yükselci Yildiz Technical University	Dr. Dmytro Sugak KARAT	Creating the scientific principles for the technologies of physico- chemical treatments of lithium niobate crystals in the presence of transition metal and rare earth ions for fabricating planar optical elements
